

# Duraprene III™

## Chemical protection with outstanding abrasion resistance, flexibility and grip

**Duraprene III™ is an unsupported chemical resistant Neoprene® rubber glove with a cotton flock lining.**

This synthetic rubber glove performs well to protect against acids, alcohols and other chemicals. Anatomically shaped for comfort, the soft and pliable formulation results in a highly flexible glove, making it extremely dextrous and minimising hand fatigue. The palm and fingers have been embossed with a diamond grip pattern offering a higher level of grip for safer handling in both wet and dry conditions. The glove also attains maximum EN388 score for abrasion resistance enhancing its mechanical protection and durability. The cotton flock lining is soft and absorbent keeping the hands cool and comfortable in prolonged use. Duraprene III™ is also ideal for use in cold conditions as it maintains its superb elasticity in low temperatures.

**Case Quantity**  
12 pairs per polybag  
72 pairs per case

### Handling Applications

- Chemical Industry
- Janitorial
- Plant Maintenance
- Laboratory

Size	6-6.5	7-7.5	8-8.5	9-9.5	10-10.5
Code	SE754	SE755	SE756	SE757	SE758
Length	32cm	32cm	32cm	32cm	32cm

Thickness: 0.75mm  
(Single Wall measured at palm)
